

Eye Pad Packaging Machine

Eye pad packaging machine is design for packing different size of eye pad,eye mask,eye patch into individual sachet.

This model is high speed,it works with 2 lane for feeding convey system,the production is 2 row at the same time.

With our experienced engineers team,we can modify our machine to meet buyer individual requirement.

Features:

1. It is PLC programmed control by LCD touch screen for simple operation.
- 2 High-sensitivity photoelectric eye color tracking, digital input sealing and cutting position, making the sealing and cutting position more precise.
- 3.Temperature independent PID control, better use of various packaging materials.
- 4 Positioning stop function, no sticking knife, easy maintenance.

Main data:

Machine name: Eye pad packaging machine

Model:PPD-EPP

Packaging product:different 4 side sealing eye pad,eye mask,eye patch etc.

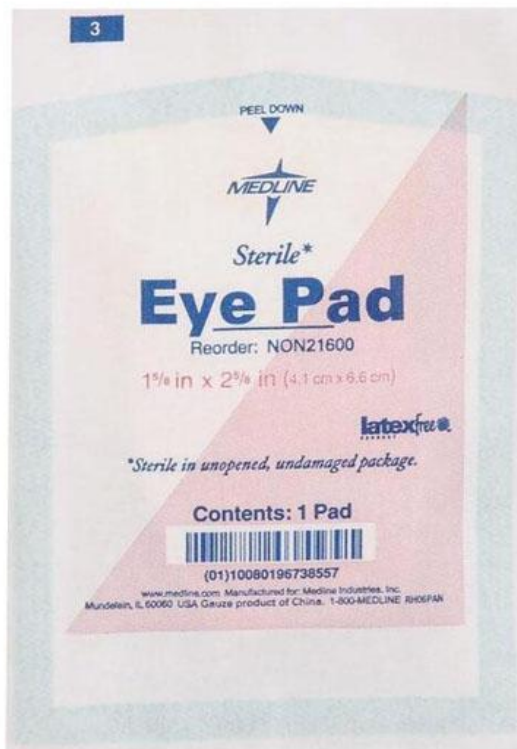

Sachet size:100-200x100-200mm

Speed:80-120pc/minute

Power:2.5kw

Voltage:220v,50&60hz

NOTE:Different sizes can be customized.
